

What is a powersafe SBS 100F battery?

The advanced thin plate, pure lead technology and unique manufacturing methods used by EnerSys make PowerSafe SBS batteries the choice for long and trouble-free service. The PowerSafe SBS 100F battery utilizes proven technology to provide a superior range of valve-regulated batteries with an extended service life.

What is a powersafe SBS 100F front terminal monobloc?

Powersafe SBS 100F Front Terminal monoblocs retain the benefits of Thin Plate Pure Lead technology such as long life, high energy density superior shelf life. Alpine Power Systems is an approved platinum distributor of EnerSys products. Powersafe SBS 100F General Specifications:

What is a powersafe SBS front terminal battery?

The PowerSafe SBS Front Terminal battery models are smaller and lighter than conventional lead-calcium batteries. Smaller dimensions, front terminal configuration and capacity range from 31Ah to 190Ah, make PowerSafe SBS Front Terminal battery models ideal for a wide range of telecom Outside Plant (OSP) and small Central Office (CO) applications.

What is a powersafe SBS 2V & 12V battery?

Where conventional VRLA AGM batteries struggle to cope with harsh conditions and frequent power outages, EON Technology makes PowerSafe SBS 2V and 12V batteries the perfect solution for the challenging operating conditions of today's telecommunication networks.

What is the powersafe SBS EON Technology battery range?

The PowerSafe SBS EON Technology battery range is available in two configurations: the front terminal SBS B14 - SBS 210F designs which make installation and inspection quick and easy and the SBS 320 - 3900 series which offers industry-leading capacities (up to 3900Ah) in OPzV's DIN container sizes.

Where are powersafe batteries marketed?

PowerSafe products are marketed under the SuperSafe brand in the following specific countries - India, Indonesia, Malaysia, Singapore, Thailand, Australia and New Zealand. Featuring advanced Thin Plate Pure Lead (TPPL) technology, PowerSafe SBS batteries deliver long life, high energy density and superior shelf life for telecommunications.
