Is Sunova solar a subsidiary of thornova solar?

Chinese photovoltaic and energy storage solutions supplier Sunova Solar Technology Co Ltd announced on Thursday that it will unite with Thornova Solar, its sister brand used in North America and Mexico, and move forward with a new name. Solar cells. Author: Jeff Kubina. License: Creative Commons, Attribution-ShareAlike 2.0 Generic

What happened to thornova solar?

With this in mind, we have decided to move past the Sunova Solar brand and continue our future as Thornova Solar. Our latest high-density PV panels stand for exceptional electricity production and are used in applications ranging from floating solar systems to lowlands and alpine altitudes.

Are thornova solar modules reliable?

Our management team has extensive experience in the solar industry and has established relationships with business partners in the U.S. and around the world. Thornova solar modules have proven reliability and performance, with up to 30-year performance guarantees.

Why is thornova solar moving away from Sunova solar?

As climate change is one of the most dramatic challenges of our time, with our solar modules we want to contribute to the preservation and defence of a planet worth living on. With this in mind, we have decided to move past the Sunova Solar brand and continue our future as Thornova Solar.

Is thornova solar making solar cells in Indonesia?

Thornova Solar is making solar cells and modules in Indonesia, outside the reach of recent U.S. trade policy.

Does thornova solar have a US market?

Thornova Solar customers in the U.S. market will be served by two lines with a name plate capacity of 2.5 GW each. "The US is the most important market for Thornova Solar," says William Sheng, CEO of Thornova Solar.
