What are the best solar panels in the UK?

According to our findings, the brands with the best solar panels include REC Group, Sunpower, and AIKO. What is considered the "best" solar panel in the UK will vary depending on who you ask, and what metrics you value. Some homeowners may prefer a low-cost solar panel over one that's highly efficient, for example.

How do I choose a solar panel brand?

It's unusual to choose a specific solar panel brand at the outset. Instead you're likely to encounter different brand options as you get quotes from different installers. Typically, your chosen installer will buy the panels to fit on your home. Some only install solar panels from one brand, while others may install panels from a few brands.

How do I choose the best solar panels?

For example, solar panels with the highest power ratings are ideal for large households, while more efficient panels are a better choice for small roofs and homes that don't get much sunlight. We'll offer more guidance on choosing the best solar panels for you in our buyers' guide, below.

Which solar panels are best for your home?

As well as having good energy output, SunPower's Maxeon 6AC panels have a high efficiency rating of up to 23 per cent. These crack-resistant panels are ideal for all homes, especially those near the coast, as they're designed to withstand corrosion caused by salty air.
