

Opportunities for Residents and Investors. In November 2018, the BVI brought into force Renewable Energy Regulations made under a 2015 amendment to the British Virgin Islands Electricity Corporation Act. The BVI is well positioned to generate several forms of renewable energy--wind, solar and hydro energy being the most obvious.

The islands were part of the British colony of the Leeward Islands (1872-1960); they were granted autonomy in 1967. The economy is closely tied to the larger and more populous US Virgin Islands to the west; the US dollar is the legal currency. On 6 September 2017, Hurricane Irma devastated the island of Tortola.

This is indeed a special moment, as today's contract signing signals progress with renewable energy in the Virgin Islands. What better place to start such an eco-friendly initiative than Anegada? ...
