What is MN8 energy doing with Mercuria?

MN8 Energy has entered a strategic collaboration with Mercuria to explore commercial opportunities for future sustainable, affordable and reliable energy systems. The investment will facilitate the ongoing growth of MN8's portfolio across solar, storage and electric vehicle (EV)-charging projects.

What happened to MN8 Energy LLC?

US independent solar power producer MN8 Energy LLC announced on Monday the closing of a USD-325-million (EUR 303m) private placement, the proceeds of which will allow the company to expand its operations. Image by MN8 Energy.

How many solar projects does MN8 have?

MN8 said it currently has a solar fleet with a capacity of 3.2 gigawatts, made up of more 875 projects in 28 states, and battery storage projects with a combined 270 megawatts of capacity.

Can Senegal achieve its broader economic objectives?

Senegal's significant efforts to develop its energy sector and deliver energy access to more people are laying important groundwork for the country to achieve its broader economic objectives, according to a new report from the International Energy Agency (IEA).

How are solar energy potentials exploited in Senegal?

The potentials have already been exploited with large-scale projects via Independent Power Producers (IPPs), with the first solar parks commissioned in 2016 and 2017. It is also important to note that oil and gas fields were first discovered in Senegal in 2014. Their exploitation was to begin in 2020.

How has Senegal reformed its energy sector?

Since the launch of the Plan Sénégal Émergent, Senegal has adopted reforms designed to attract foreign investment in its energy sector and boost participation from the private sector, while leveraging significant support from development finance institutions.
