

Solar Street Light Swivel Arm Bracket

What types of brackets are available for a flood / street light?

Column spigot adaptors & reducers, Amenity post top brackets, Flood light brackets, Highway brackets & Outreach Arms, plus bespoke designs available. We manufacture a wide range of galvanised lighting brackets to ensure your Flood / Street or Amenity light is securely attached to the street lighting column / wall.

What are the different types of lighting brackets?

Lighting Brackets - Column spigot adaptors & reducers, Amenity post top brackets, Flood lighting brackets, Highway brackets & Outreach Arms.

Are lighting brackets galvanised?

All lighting brackets are hot dip galvanised and come complete with all the necessary bolts and grub screws for mounting. We also offer a full painting service where your lighting bracket can be painted to a RAL colour and gloss level to match your street lighting column.

How do I choose the right lighting bracket?

In order to correctly specify / purchase the correct lighting bracket you will need to know the column diameter / column spigot size and maximum head load of the column. A selection of our most popular lighting brackets are listed below. However, please contact our sales team for further information and technical support. You may also like...

Do you offer a bespoke lighting bracket design service?

As well as stocking a full range of lighting brackets, we also offer a bespoke bracket design service by our in-house engineers. In order to correctly specify / purchase the correct lighting bracket you will need to know the column diameter / column spigot size and maximum head load of the column.
