

Solar energy company names Saint Pierre and Miquelon

What is New Caledonia's largest solar power plant?

The project involves building and operating a solar power plant with a capacity of 11.2 MWc in the South Province, in Boulouparis. The power plant, which is the largest existing solar facility in New Caledonia, comprises 43,000 panels covering 20 hectares. It was commissioned at the end of April 2017.

Who owns New Caledonia's energy?

The energy produced will be sold via a long-term power purchase agreement to Enercal, a semi-public company majority owned by New Caledonia. A similar (but smaller) project has also been financed at the same time in Temala in the North Province. It is the first photovoltaic power plant on customary land.

Who owns the energy company in Denmark?

Furthermore, it is owned by the Danish Ministry of Climate, Energy as well as Utilities. The company owns, operates as well as develops the transmission systems of electricity and natural gas in Denmark. Its main purpose is to contribute to the development of a climate-neutral energy supply.

The present titular is Mgr Christophe-Louis Legasse, b. at Bassussary, France, 1859, appointed in 1898, prelate of His Holiness in 1899. His chief work was the erection of the cathedral of St-Pierre, his residential town. The population, almost exclusively Catholic, varies from 4000 in winter to 8000 in summer, owing to the presence of the fishing crews.
