What is ProSolar Systems in solar energy?

ProSolar Systems is an award-winning solar energy company serving The U.S. Virgin Islands. We offer a variety of renewable energy products for every home, every business, and every budget.

What is offshore solar?

With only a fraction of that space covered by solar panels, a lot of energy can be generated - even more than needed. Offshore solar is a game changer in the energy transition. We care about the marine environment. It is our goal to bring abundant clean energy to the world using the vast space at sea without jeopardizing nature.

What is an offshore solar farm system?

Offshore solar farm systems: abundant, affordable and clean energy for everyone. At Oceans of Energy we create offshore solar farm systems to generate clean and renewable energy. The future of renewables lies at sea.

Why is offshore solar so important?

Almost half of the world's population lives within 100 kilometers of the coast. The oceans offer a lot of space. With only a fraction of that space covered by solar panels, a lot of energy can be generated - even more than needed. Offshore solar is a game changer in the energy transition. We care about the marine environment.

The ongoing technological and engineering updating of the R&D department of the group ensures high performance throughout their lifespan (25-years warranty and 90% of the power of the module for 10 years).
