

Solar panel providers Cuba

How many solar panels are there in Cuba?

This greatly underdeveloped energy source is slowly making its way across the island: there are currently more than 6,000 photovoltaic panels and 1,500 solar heaters in use. The installed solar energy generating capacity in Cuba is around 3 megawatts, or 0.07 % of the total installed capacity.

Is Cuba wasting solar energy?

The opportunity now for individuals to import their own photovoltaic systems to Cuba, may change this situation. With just 20,000 solar water heaters and a million kWh every day of energy installed in its photovoltaic parks, Cuba is basically wasting the vast majority of the solar energy it has available. Read more from Cuba here on Havana Times.

How much energy does Cuba use per month?

By the end of 2020, the average consumption of private clients in Cuba was 185 kilowatts/hour (kWh) per month: just over 2200 kWh per year. Practically the amount of energy that reaches any geographic location in Cuba in the form of solar irradiance in a year (around 1825 kWh per cubic meter).

How much electricity does a Cuban House use?

With today's photovoltaic technologies, any Cuban house can in theory satisfy its own electricity needs, as well as that of neighboring residences. By the end of 2020, the average consumption of private clients in Cuba was 185 kilowatts/hour (kWh) per month: just over 2200 kWh per year.

Does Cuba rely on fossil fuels?

Cuba's power system is currently heavily reliant on fossil fuels. In 2022, fossil fuels accounted for about 95% of electricity generation, and about 48% of the fossil fuels used were imported, putting the country at high risk of price shocks and supply shortages.

In April, the solar farm came online and began contributing the first solar power to the island's energy grid. Cuba already had about 9,000 panels in use, but all of them were for small-scale, isolated usage such as powering rural hamlets, schools and hospitals.

Cuba has never stood idly by. Interview granted by Miguel Mario Díaz-Canel Bermúdez, First Secretary of the Central Committee of the Communist Party of Cuba and President of the Republic, to Ignacio Ramonet, Spanish professor and journalist, at the Palace of the Revolution, on May 11, 2024, "Year 66 of the Revolution".

Since 2013, our in-house solar experts and engineers have built one of the most accurate solar calculators available. Homeowners can use our solar calculator tool without inputting any personal information, so they can evaluate the economics of installing solar panels on their homes.

Solar panel providers Cuba
