Martin Next Generation Solar Energy Center is the solar parabolic-trough component of an integrated solar combined cycle (ISCC) 1150 MW plant, in western Martin County, Florida, United States, just north of

Indiantown. The project was built by Florida Power & Light Company (FPL). Lauren Engineers & Constructors (Abilene, TX) was the EPC contractor for the project. [1]

Saint-Martin is located in the French Antilles. The island is divided into a French part and a Dutch one. The population of the French part is about 36,000. An increase is observed during the tourist season between November and April. The main economic activity of the island is based on tourism. Power supply Electricity to Saint Martin is provided by a fuel power plant.

energy and wind energy could be the promising alternatives to meet the electricity demand. 5. Renewable Energy potential in Saint Martin Island 5.1. Solar energy potential The latitude and longitude of the study area are 20.60° degrees north and 92.32° east respectively. Geographically, Fig. 3. Saint Martin Island on the map Fig. 4.
