

Steps to install photovoltaic panels on concrete walls

How do I install a solar panel?

Installing your solar panel is a straightforward process though calling in professional installers is recommended. Making sure these installers are accredited by MCS is highly important, so as to ensure a high standard of installation. A solar panel will be most effective if you have a south-facing roof.

Can solar panels be mounted on a wall?

So, although it is possible to mount solar panels on a wall, it's not ideal. You're also less likely to be able to mount as many solar panels on a wall as you would on a roof, which means they won't generate as much electricity as a roof-mounted system. What are the pros and cons of wall-mounted solar panels?

What is needed to install solar panels on UK homes?

Here's a quick guide to what's needed to install solar panels on UK homes: An installer should visit to determine if the property is suitable for solar panels. They will look at the size and orientation of the roof to decide the best location and angle for installing panels.

Can solar panels be installed on a south-facing wall?

Wall-mounted solar panels are typically installed as modules on a south-facing wall. It's not logical to install your solar panels on a wall that isn't south-facing since wall-mounted systems already have setbacks in their energy generation due to their slope.

What is a DIY solar panel installation?

DIY installations allow you to customise your solar panel system to match your home's energy needs and roof layout (or perhaps even a balcony). Some professional installations may offer limited options, while a DIY approach allows for optimising panel placement, choosing specific components, and tailoring the system for maximum efficiency.

Can I install my own solar panels?

It is legal to install your own solar panels - but it's not a good idea, unless you're a certified solar installer. You'll need expertise in roofing and electrical work, as well as specialist equipment and - in most cases - scaffolding.
