

Sunchoice energy Palestine

Who is sunchoice energy?

Sunchoice Energy partners with the agriculture industry and agricultural businesses to design and install custom solar solutions. Reduce energy costs, increase sustainability, and power your operations with clean energy.

Why should you choose sunchoice energy?

The agriculture industry has relied on Sunchoice Energy for dependable and cutting-edge solutions that promote profitability and sustainability. Enhance your profits and illuminate your future with Sunchoice Energy's customized solar solutions. We partner with commercial farmers to unlock a brighter financial future powered by sunshine.

Is solar energy a reliable source of energy in Palestine?

In Palestine, solar energy is a reliable source of energy due to its high average radiation and sunshine rate per day (Daoud, 2018). Yet, the yearly progress of the solar energy is around 1% only as indicated by the Palestinian Energy Authority (PEA) plan (PEA, 2013). Fig. 1. What makes sunchoice a good solar company?

This unwavering pursuit of integrity is the sunstone that guides our actions and fuels our position as the leading solar company, setting the standard for ethical and transparent partnerships. At Sunchoice, we salute the heroes who guard our freedom and nourish our nation.

Why is solar power important in Palestine?

The solar power can be a key supplier of energy to the forthcoming generations in Palestine, due to the total amount of yearly sunshine's hours (3000 h) and annual solar radiation (5.4 kWh/m). Furthermore, solar water heating (SWH) is widely used in where about two third of residents own such systems.

Is Palestine a good place to invest in solar energy?

Palestine has some of the highest rate of solar water heating in the region, and there are a number of solar power projects. A number of issues confront renewable energy development; a lack of national infrastructure and the limited regulatory framework of the Oslo Accords are both barriers to investment.
