How long will Cocos Keeling Island be under water?

Inundation studies of Cocos Keeling Islands predict the atoll could be under water in 50 or 60 years. For now, sandbags provided by the Commonwealth hold back the water on both Home Island and West Island. During cyclone season, roads in the kampong on Home Island are often inundated and houses can be thigh-deep in saltwater.

Why are the Cocos Islands called the Keeling Islands?

The territory's dual name (official since the islands' incorporation into Australia in 1955) reflects that the islands have historically been known as either the Cocos Islands or the Keeling Islands. The territory consists of two atolls made up of 27 coral islands, of which only two - West Island and Home Island - are inhabited.
