

Sunterra solar Yemen

Is Sunterra a good solar company?

Customer Service - Exceptional! Sunterra has been the most helpful and understanding Solar company. They have listened and understood my needs. They were the only company that did not try to pressure me into buying a 6 to 12 KW system. The install went ahead without any complications and the installation team was friendly and knowledgeable.

How does Sunterra work?

This is the foundation SunTerra works from. SunTerra is transforming solar energy beyond intermittent and disruptive making it useable, available, and dispatched when electricity customers need it most.

Why are people moving to solar power in Yemen?

The migration to solar power is part of what researchers say is an energy revolution in the country of 28 million, where the electric grid has been decimated by fighting. More than 50 percent of Yemeni households rely on the sun as their main source of energy, and solar arrays power everything from shops to schools to hospitals.

Can solar power save Yemeni rials?

Farmer Mohamed Ahmad Sid El Rassam can attest to those benefits. He built a solar-powered water pump on his land in the region of Beni Hocheich. The setup chopped his diesel use by more than 85 percent, saving him 17 million Yemeni rials (\$68,000) a year.

How much does a solar array cost in Yemen?

That has pushed farmers toward solar arrays. But the up-front costs can be high. Rassam paid about 50 million Yemeni rials (around \$90,000 based on the unofficial market exchange rate) for his system, which is considered large by local standards. The average cost of an array is around \$10,000.

Is solar power a lifeline in Yemen?

"For many in Yemen, especially for farmers, solar power has been a lifeline," says Matt Leonard, who specializes in microfinance with IFC. "The key now is to scale up its use." Yemen has long been the poorest country in the Middle East and North Africa, but a conflict that broke out in 2014 has pushed the country to the brink.
