

Sunware solar panels Ireland

Where are sunware solar panels used?

From use on sea buoys and boats to avalanche bridges, SunWare marine solar panels and solar systems are used worldwide wherever reliability, durability, robustness and freedom from maintenance are required. Made in Germany by SunWare. Ideal for use on bimini, sprayhood & tarpaulin.

Where are sunware solar panels made?

SunWare solar panels are designed and manufactured for extreme application conditions. From use on sea buoys and boats to avalanche bridges, SunWare marine solar panels and solar systems are used worldwide wherever reliability, durability, robustness and freedom from maintenance are required. Made in Germany by SunWare.

Who is sunware solartechnik?

The SunWare Solartechnik GmbH & Co. KG, based in Duisburg founded in 1987 by Dipl.-Ing. Julian Schrenn. Initially specialized in the production of solar modules, solar charge controllers for marine and caravan applications. In 1995, the product range of SunWare was extended by the service sector.

Are sunware solar panels a good choice?

SunWare solar panels have the highest power output to surface area ratio of walk on solar panels on the market. Their efficient polycrystalline cells convert sunlight to power into your battery so you can have the luxury of cool drinks and keep the essential equipment like the depth sounder running too. Not sure what panels you need?

What are sunware solar panels & charge controllers?

Developed for the harsh conditions at sea - SUNWARE solar panels and charge controllers. Since 1987, the company has been developing solar panels for the special challenges of saltwater usage, while always paying the greatest attention to quality. Learn more about SUNWARE... [Go to video...](#)

What are sunware solar modules?

The SunWare solar modules are specially designed and developed for use in the maritime sector. The modules are available in 12 volt and 24 volt versions. All used components of the entire module are absolutely sea- and saltwater-resistant. The production facilities for our own production are optimized for maximum quality and flexibility.

With LOXX clips onto the Bimini, plug-in-done Sunware TX series of solar panels are light-weight panels with textile cover made of high-quality tarpaulins. TX modules have been specially developed for mounting on Bimi or Sprayhood. These areas provide sufficient space for powerful solar modules. Finally enough power for the fridge, tablet, sat ...
