

Will Sweden generate 100% of its electricity by 2040?

Sweden aims at generation 100% of its electricity from renewable energy sources by 2040. The Swedish draft plan states that Sweden's energy use in 2030 is to be 50% more efficient than in 2005.

What percentage of Sweden's electricity comes from renewable sources?

In 2022, more than 60 per cent of Sweden's electricity came from renewable sources. The government's energy policies have also promoted the use of renewable energy. The Electricity Certificate System - a market-based support system for renewable electricity production - is one example.

Will Sweden's energy use be 50% more efficient in 2030?

The Swedish draft plan states that Sweden's energy use in 2030 is to be 50% more efficient than in 2005. The target is expressed in terms of primary energy use in relation to gross domestic product (GDP), and is based on a scenario reflecting existing measures adopted before 30 June 2016.

What percentage of Sweden's electricity comes from wind power?

In 2022, some 19 per cent of Sweden's electricity came from wind power. Combined heat and power (CHP) plants - mainly powered by biofuels - accounted for around 9 per cent of the electricity output. Sweden is wise to draw energy from the forest. There's lots of it! Photo: Per Pixel Petersson/imagebank.sweden.se

How does Sweden use energy?

In Stockholm, the body heat from commuters passing through Stockholm Central Station is used to heat a nearby building, and in the southern town of Växjö, there are passive high-rises. More than half of the energy used in Sweden comes from renewable energy sources. Find out more about Sweden's energy use.

Can Sweden use hydrogen as a fuel?

Among with many other countries, Sweden is looking into the possibility of using hydrogen as fuel, or for electricity or heating. So-called passive houses are built without conventional heating systems and are kept warm by the heat given off by their occupants and electrical appliances. Sweden's first passive house was completed in 2001.

"Many of Sweden's leading hip-hop artists refuse to identify themselves as either Swedish or non-Swedish but simply 100% themselves," he explained, adding that they are blurring the lines between Swedish and immigrant cultures. ...
