

Syria nextnorth energy group

Who is nextnorth solar?

It is an affiliate of Nextnorth Holdings Corp., a Philippine-based renewable energy (RE) developer of solar and hydro projects with around 480-MW potential energy capacity. The company will begin the project next year on a 400-hectare land in Ilagan City, Isabela used for sugarcane and bioethanol production.

What happened to Suncor Energy in Syria?

**Canada's Suncor Energy Inc suspended its Syria operations in 2011. Its primary asset is the Ebla development located in the Central Syrian Gas Basin covering more than 300,000 acres (approximately 1,251 square kilometres). The gas field was producing 80 million cubic feet of natural gas per day.

Who are Starlight & NextEnergy?

Starlight is a developer and has a pipeline of 10 GW greenfield and brownfield solar project developments. NextEnergy Capital is a leading global investment manager in the solar sector. WiseEnergy is a market-leading solar asset operator delivering services to ensure excellent plant construction and operational performance.

Why is Syria reliant on Iran?

Syria's 13-year civil war crippled the country's energy sector, making it highly reliant on imports from Iran. Below are facts about Syria's energy sector. **Syria has not exported oil since late 2011, when international sanctions came into force, and has become dependent on fuel imports from Iran to keep power supplies running.

How will Syria's fall impact key players in the Middle East?

For Russia, Syria's fall could mean losing its closest Middle Eastern ally and undermining its ability to project power while it fights a war in Ukraine. For Iran, it could shatter its so-called Axis of Resistance, comprising allied states and militias. Here's how the events in Syria could impact key players in the Middle East:

Is Israel in between Iran and Syria's Islamic rebels?

"Israel is in between Iran, its proxies and Syria's Islamic rebels," Avi Melamed, a former Israeli intelligence official, told CNN. "None of the choices are good as far as Israel is concerned but for the time being Iran and its proxies are weakened, which is good."

The renewable energy market is set to make strides under a supportive administration alongside a more lenient economic backdrop that will make loans cheaper for developers, according to an energy stakeholder. Miguel Mapa, founder and chief executive of Nextnorth Holdings Corp., said that while the sector continued to deal with "familiar ...
