Can Taiwan supply energy for its economy?

"They're all interested in how Taiwan can supply energy for its economy going forward -- energy that meets global goals for decarbonization," says Robert C. Armstrong, the Chevron Professor of Chemical Engineering Emeritus at MIT, as well as a principal investigator for the Taiwan Innovative Green Economy Roadmap (TIGER) program.

What is Taiwan's innovative green economy roadmap?

Taiwan's Innovative Green Economy Roadmap (TIGER) is a two-year program with the MIT Energy Initiative, exploring ways that industry and government can promote and adopt technologies, practices, and policies that will keep Taiwan competitive amid a quickly changing energy landscape.

Can Taiwan secure its energy future?

The MIT Energy Initiative and a consortium of Taiwanese companies are exploring how Taiwan can secure its energy future as the world transitions away from fossil fuels.

Does Taiwan rely on foreign energy?

Taiwan's extreme reliance on imported energy sources poses significant risks. Nearly 98 percent of its fossil fuels are imported, primarily from the Middle East. This dependency on foreign energy, particularly in a region where China's influence is expanding, raises concerns about Taiwan's long-term energy security.

Is China affecting Taiwan's long-term energy security?

This dependency on foreign energy, particularly in a region where China's influence is expanding, raises concerns about Taiwan's long-term energy security. Geopolitical tensions could disrupt supply chains, driving up costs and exacerbating energy shortages, potentially hampering Taiwan's critical industries.

What is Taiwan's energy security?

Taiwan's energy security is a complex and serious issue, one that cannot be sacrificed to populist or activist sentiment. The future of Taiwan's energy mix must be determined through a rational, fact-based lens, with a clear focus on maintaining economic competitiveness and global leadership in high-tech industries.

Taiwan Cube Energy Co., Ltd. (TCE), a portfolio company of I Squared Capital, has secured USD 135 million (NTD 4.0 billion) of non-recourse project financing for its 400 tonnes per day, 20-megawatt Waste to Energy ...
