Is the new Togo solar power plant sustainable?

H.E. Mohammed Saif Al Suwaidi, Director General of ADFD, said: "This new Togo solar power plant truly reflects the level of sustainable impact we can achieve through the ADFD and IRENA renewable energy development program."

Which power plant increases Togo's electricity production capacity?

This power plant increases Togo's electricity production capacity by 50%. Blitta Solar Plant The Sheikh Mohamed Bin Zayed solar power plant or Blitta's solar plant (located in the central region, 262 km from Lomé) was built by AMEA Togo Solar, a subsidiary of AMEA Power, and inaugurated in June 2021.

Who developed AMEA Togo solar?

The plant was developed by AMEA Togo Solar, a subsidiary of AMEA Power - a global renewable energy developer based in the UAE. IRENA remained heavily involved in the project throughout the process, brokering discussions between the Togolese government, ADFD and AMEA Power, and presenting solutions to construction and financing challenges.

How is rural electricity steered in Togo?

In Togo, rural electricity projects are steered by the Rural Electrification and Renewable Energy Agency. Several companies, including BBOXX, EDF, and Sun King-Soleva, are actively working to promote universal access to electricity by developing innovative technologies and providing solar energy services to communities not connected to the grid.

Will Togo build a solar plant in Salimé & Awandjelo?

Togo plans to build two more solar plants in the coming years, one in Salimé, (In the Tchoudjo prefecture) and the other in Awandjelo (Kozah). Last June, the BOAD approved a CFA25 billion financing for the construction of the Awandjelo plant. The latter should generate an additional 42 MWp, and bring renewables' share in Togo's energy mix to 40.

What is the largest solar project in West Africa?
