

Will tozero's lithium recycling solution be a viable alternative?

The global demand for lithium is expected to quadruple by 2030, driven by the growth of electric vehicles and renewable energy storage needs. However, with current lithium mining meeting only 5% of projected demand, tozero's recycling solution offers an alternative by transforming battery waste into high-purity lithium.

What is tozero & how does it work?

Along with this background, tozero has developed a revolutionary process to separate lithium from other materials and efficiently recover lithium from "black mass," which is a powdered form of all types of LIB waste.

What is tozero battery recycling?

Founded in 2022 by Sarah Fleischer and Dr. Ksenija Milicevic Neumann, tozero focuses on sustainable lithium-ion battery recycling, addressing Europe's lithium supply gap by recovering critical raw materials and reintegrating them into global supply chains.

How does tozero support the production of New LIBs in Europe?

Furthermore, tozero aims to support the production of new LIBs in Europe by reintroducing recovered and recycled materials into the supply chain, thereby promoting a circular economy.

Is tozero making human history?

Sarah Fleischer, Co-founder and CEO of tozero said: "Despite our limited resources as a two-year-old startup, we've already made human history by being the first to ever deliver recycled lithium for end products in Europe, while our competitors are still lingering on the topic for many years."

Last Update: 12.11.2022 . Munich, 12 November 2024: tozero - Europe's pioneer in sustainable lithium-ion battery recycling - has raised EUR11 million in an oversubscribed seed round led by NordicNinja. New investors joining this funding round include In-Q-Tel (IQT), automotive giant Honda, and global infrastructure engineering giant JGC Group.

Digitalization focuses on using digital technologies and solutions to improve business processes, operations and more, opening up new revenue streams and realizing efficiency. Fundamentally, it delivers value to customers, by integrating digital solutions in all areas of your business.

Uruguay, a country of some 3.5 million people, stands out in Latin America for its low levels of poverty and inequalities, founded upon a commitment to shape a more equal society. Meeting with President Luis Lacalle Pou and three of the ...

In 2007, Uruguay had a massive problem with no obvious fix. The economy of this country of 3.5 million

people was growing, but there wasn't enough energy to power all that growth. Ram&#243;n M&#233;ndez ...

[TL;DR] tozero is the first and only battery recycler in Europe successfully supplying customers with its recycled lithium, utilized in end products sold worldwide; tozero's proprietary recycling tech focuses on the true bottleneck, recovering critical raw materials from lithium-ion battery waste and reintegrating the recycled materials back into global supply chains

We are happy to announce that JGC Holding Corporation (Masayuki Sato CEO) and JGC Japan (Yasuharu Yamaguchi CEO) jointly invested in tozero through Mirai Corporate Venture Capital (CVC) fund. tozero (headquartered in Munich, Germany) is a startup company enabling efficient recycling of critical materials from various types of lithium ion ...

Welcome to Greenside Uruguay Not throwing away used oil is a gesture that helps to care for the planet We are the leading company in the collection of used vegetable oil in Uruguay, covering the whole country. We offer a service of collection, transport, storage...

Uruguay's Gini index of less than 0.4 is the lowest in Latin America, the poverty index dipped below 8 percent in 2017. Uruguay is the most socially advanced country in the region. It legalized divorce more than a ...

Uruguay's Environment Minister Adri&#225;n Pe&#241;a Monday forecast that by 2035 ANCAP's La Teja refinery will be closed and vehicles will be 100% zero emissions, as the country advances towards its ...

Last Update: 23.04.2024 . Munich, Germany - 23.04.2024: tozero, a Munich-based climate tech pioneer in lithium-ion battery recycling, marks a significant industry breakthrough with the first commercial delivery of recycled lithium derived from battery waste using their proprietary hydrometallurgy process.

Last Update: 17.11.2023 . MUNICH - Munich-based climate tech startup tozero and Huayou Recycling proudly announce the signing of a partnership for the recycling of battery waste in Europe. The partnership will have a significant impact on the region's battery industry, addressing the challenges posed by the growing electrification of the European eMobility landscape and ...

Uruguay, a country of some 3.5 million people, stands out in Latin America for its low levels of poverty and inequalities, founded upon a commitment to shape a more equal society. Meeting with President Luis Lacalle Pou and three of the country's former Presidents - Luis Alberto Lacalle Herrera, Julio Mar&#237;a Sanguinetti and Jos&#233; Mujica- on an official visit to Uruguay, the ...

tozero GmbH is on the mission to challenge the status quo of lithium-ion battery recycling technologies and accelerate the decarbonization efforts. ... Total Funding. Between EUR2.5 million-5 million. Founded. 2022. Website. <https://> Articles about tozero: November 15, 2024 Weekly funding round-up! All of the European ...

About tozero. tozero recycles lithium-ion batteries within the environmental sustainability sector. The company recovers materials such as lithium, nickel, cobalt, manganese, and graphite from batteries and reintroduces materials into the supply chain. tozero serves mobility firms, electronic waste recyclers, battery manufacturers, and second-life battery firms.

Incat's long-term South American customer, Buquebus will have the vessel to operate between Argentina and Uruguay. It has an overall length of 130 m and will have the capacity to carry 2,100 passengers and 225 vehicles. ... Wärtsilä is a global leader in innovative technologies and lifecycle solutions for the marine and energy markets. We ...

Uruguay has been widely praised for its decarbonization efforts. The country also has a strong history of social dialogue and labor movements. Policies, Actions and Results. In Uruguay, electricity generation from fossil fuels (almost all oil) peaked in 2012, and fossil-fueled capacity peaked in 2013 and 2014. Between 2014 and 2015, fossil ...

tozero developed its proprietary process based on "Hydrometallurgy" to recycle lithium-ion batteries for the EV Industry and recover critical materials like lithium, nickel, cobalt, and graphite. This will allow us to take old batteries and reintroduce fresh raw ...

Uruguay uno de los 25 países donde opera Greenside Solutions Brindamos soluciones de sostenibilidad para la valorización de residuos Objetivo cero residuos cero emisiones Garantizamos la trazabilidad desde la generación del residuo hasta su fin sostenible Bienvenidos a Greenside Uruguay. No botar el aceite usado es un gesto que contribuye a ...

CO<sub>2</sub> emissions are dominated by the burning of fossil fuels for energy production, and industrial production of materials such as cement.. What is the contribution of each fuel source to the country's CO<sub>2</sub> emissions?. This interactive chart shows the breakdown of annual CO<sub>2</sub> emissions by source: either coal, oil, gas, cement production or gas flaring. This breakdown is strongly ...

About. Media and Press releases. tozero is a Munich-based startup co-founded by Sarah Fleischer and Dr. Ksenija Milicevic Neumann. The company's target is to establish Europe's leading lithium-ion battery recycling plant, focused on recovering critical materials such as lithium and graphite in a sustainable way. ...

"Uruguay is taking on a high political cost with the new sovereign bond. But if it succeeds, it would be a milestone for the region," said Sebastián Ramos, a partner in the banking and finance department of Ferrere, a law firm in Montevideo. "The learning curve is high, as it is the first in the region with a sovereign bond of this type

tozero, a Munich-based battery recycling startup, has raised EUR11 million in an oversubscribed seed funding round led by NordicNinja, with new investors including In-Q-Tel, Honda, and JGC Group.Existing investors Atlantic Labs, Verve Ventures, and Possible Ventures also participated in the round. Founded in 2022 by
