

# Vanuatu smart flower solar panel price

How much does a smartflower solar panel cost?

Now, let's talk about the numbers. How much does the SmartFlower cost? Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

What are smartflower solar units?

The innovative and visually striking Smartflower solar units, which mimic the sun-tracking movement of real flowers, are rarely seen in residential settings, largely due to their substantial price point. Smartflower stands out in the solar energy market with its distinctive design, blending functionality with artistic flair.

What are the different types of smartflower solar panels?

There are currently three models available: the basic Smartflower Pop, the Smartflower Pop+ which includes batteries, and the Smartflower Pop-e which includes an electric vehicle charge port. The actual solar installation is quite small, just 2.51 kilowatts.

How is smartflower different from other solar panels?

A quick glance at Smartflower makes it clear how different this solar sculpture is from the solar panel systems we're used to seeing on rooftops or ground-mounted arrays. Aside from its looks, its dual-axis tracking capability allows Smartflower to generate up to 40% more energy than typical fixed solar panels, Gordon said.

What is the warranty on a smartflower solar panel system?

The SmartFlower solar panel system has a system warranty of 5 years and a module performance warranty of 25 years. This also differs from other solar panel systems that have 20 to 25-year warranties for both the system and performance. Even most ground-mounted systems with sun-tracking capability have 10-year system warranties.

Are smartflower solar panels ground-mounted?

Smartflower's solar installations are ground-mounted: The panels, inverter and optional battery are part of one freestanding structure that is delivered fully assembled. Installation is about as close to plug-and-play as any major solar installation can claim. One Smartflower stands about 16 feet tall when its 12 solar petals are fully unfurled.

SmartFlower ist die innovative skulpturale Sonnenblume mit fortschrittlichen Photovoltaik-Solarmodulen, die sich für maximale Effizienz öffnen und nahe an der Reinigung halten.
