

US-based solar power technology firm Heliogen has signed a project agreement with Woodside Energy, a subsidiary of Australian energy producer Woodside Petroleum, for trialling a concentrated solar energy project in the US.. Heliogen's artificial intelligence (AI) enabled concentrated solar energy project is proposed to be developed at a site in Mojave, ...

Through its roll-out of massive energy projects in occupied Western Sahara, Morocco becomes more economically connected to, and dependent on, the territory it holds under illegal, military occupation. It intends to export energy generated in the territory to Morocco proper, and to sell off any surplus to surrounding countries, including the EU. ...

"This is a momentous victory for the people of Western Sahara. At a time when international law is under pressure, it is fundamental that the EU follows its own court and stops collaborating with the occupier through illegal trade agreements", stated Western Sahara Resource Watch. This morning, the EU Court of Justice issued a landmark ruling.

Western Sahara Resource Watch, a Brussels-based NGO allied to the independence movement, estimates that by the end of the decade occupied Western Sahara could be supplying half of all Morocco's wind energy and a third of its solar energy, much of it headed for Europe. Morocco insists that the territory is part of Morocco.

More than eight years have passed since Siemens first issued a press release regarding a contract for construction of energy infrastructure in occupied Western Sahara. The company then described the territory as "Southern Morocco";. ...

The multiple ecological crises provoked by human activities are linked to and exacerbate the other political, social and economic challenges currently faced by North Africa. 1 In Western Sahara, these challenges and crises are shaped by its continued condition as a colony. This report aims to contribute to conversations on a just transition - that is, a transition to ...

Green hydrogen (GH 2) prospects in Africa are developing at breakneck speed. But the biggest questions remain unanswered. Yes, Africa has the resources but can these highly capital intensive projects be made bankable while lenders demand heavy risk premiums on African projects?

Then we were ordered to leave Western Sahara. Now we're in an escort heading to Agadir," says Heltne. They had traveled to occupied Western Sahara to learn more about Morocco's controversial renewable energy projects in the territory. Western Sahara is considered by the UN as the last unresolved colonial issue on the African continent.

The variations in the wind energy environment and dune activity were studied based on wind regime data, including the wind speed and direction, from the western Sahara Desert and adjacent areas collected between 1979 and 2019. ... In the western Sahara Desert, the intensities of the modern north-northeast and north winds are significantly lower ...

Western Sahara [a] is a disputed territory in North-western Africa has a surface area of 272,000 square kilometres (105,000 sq mi). [3] Approximately 30% of the territory (82,500 km² (31,900 sq mi)) is controlled by the Sahrawi Arab Democratic Republic (SADR); the remaining 70% is occupied [4] [5] and administered by neighboring Morocco. [6] It is the most sparsely ...
