

What is the warranty process for photovoltaic panels

What is a solar installation warranty?

The most comprehensive solar installation warranties will include: - Product warranty: This covers defects in solar panel materials and workmanship, usually for 10-12 years. Replacement panels are covered. - Performance warranty: Guarantees a certain level of solar panel output (typically 80% of original) over 25-35 years.

What are the different types of solar panels warranty?

Types of Solar Panel Warranties There are several common warranty types offered on solar panels and other system components. The most comprehensive solar installation warranties will include: - Product warranty: This covers defects in solar panel materials and workmanship, usually for 10-12 years. Replacement panels are covered.

How long is a solar panel warranty?

Solar panel warranties vary depending on the manufacturer, but in the solar industry, a 10-year product warranty and a 25-year performance warranty are typically considered the minimum standard. However, some manufacturers provide a 25-year product warranty and extend the performance warranty to 30 years. How Much Does a Solar Panel Warranty Cost?

How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. What Is Not Covered by a Solar Panel Warranty?

Why are solar panel warranties important?

Solar panel warranties are important to make sure you get the expected electricity savings over time. For example, if your solar energy system is expected to save at least \$1,200 per year, a 25-year warranty means you get \$30,000 in guaranteed savings. Solar panel warranties also help you qualify for favorable loan conditions.

What should I look for in a solar panel performance warranty?

Ideally, you should look for a solar panel performance warranty with the following conditions: Some solar manufacturers will guarantee a degradation rate as low as 0.25% per year, and a performance warranty period of up to 30 years. The best solar companies offer homeowners an installation warranty of their own.
