

Where to contact for maintenance of photovoltaic bracket

What's included in our solar power maintenance programme?

What's included in our solar power maintenance programme? UPS Solar operates a comprehensive maintenance programme for solar power systems anywhere in the UK, which includes a full inspection of the panels themselves, along with the inverters and battery storage systems. Call our team now to discuss our solar panel care provision in greater detail.

What is solar panel care?

Call our team now to discuss our solar panel care provision in greater detail. An integral part of your solar panel maintenance agreement is the routine inspection that keeps your system in good working order, identifying any damage or problems and putting solar panel system repairs into effect straight away.

What if I am approached by an untrustworthy business offering solar maintenance?

If you have been approached by a suspected, untrustworthy business offering solar maintenance please contact us for free advice. You need a solar PV expert to service and maintain your solar panels, just as you would for any specialist electrical system.

What happens during a solar PV service?

During a service various checks will be carried out, including various inspections and electrical tests. It's really important to monitor the output of your solar PV system. If you have a system with online monitoring, such as SolarEdge, this should be easy.

Do I need a solar PV expert?

You need a solar PV expert to service and maintain your solar panels, just as you would for any specialist electrical system. If someone who isn't qualified works on your system, there's a risk they'll do more harm than good. Key settings could be affected, or manufacturers' warranties could be invalidated.

How often should solar panels be serviced?

The current recommendation is to have your solar panels serviced around once every 3 years. This can help to prevent faults before they occur, reducing any impact on your system's generation. During a service various checks will be carried out, including various inspections and electrical tests.
